## 1. Coffee exports

Coffee exports in September 2021 amounted to 585,576 60-kilo bags worth US\$ 66.62 million as shown in Fig 1. This comprised 543,279 bags of Robusta valued at US \$59.93 million and 42,297 bags of Arabica valued at US\$ 6.69 million (see Table 1 and Annex 1). This was an increase of 15.82% and 49.56% in quantity and value respectively compared to the same month last year.

Increasing Robusta exports during the month compared to the previous year were due to newly planted coffee which started yielding supported by favorable weather. This was also compounded by a positive trend in global coffee prices in the month since July 2021 as Brazil faced the threat of frost and drought, which prompted exporters to release their stocks. The decrease in Arabica coffee exports is a result of the off-year biennial cycle.

Coffee exports for the 12 months (Coffee year 2020/21) amounted to 6,494,691 60-kilo bags worth US\$ 629.89 million compared to 5,359,970-kilo bags valued at US\$ 512.22 million the previous year (Coffee year 2019/20). This represents 21.17% and 22.97% increase in both quantity and value respectively (Figure 1). Total export quantity in 12 months was the highest in 30 years.
