MONTHLY REPORT-JULY 2024

Key Highlights

A total of 821,593 60-kilo bags of coffee valued at US\$ 210.48 million were exported in July 2024 at an average price of US\$ 4.27/kilo, US cents 21 higher than US\$ 4.06/Kilo in June 2024, and US\$ 1.56 higher than US\$ 2.71/kilo in July 2023. Farm-gate prices for Robusta Kiboko averaged UGX 5,900 per kilo; FAQ UGX 12,000 per kilo, Arabica parchment UGX 12,750 per kilo and Drugar UGX 11,000 per kilo.

Coffee exports for twelve months (August 2023-July 2024) totaled 6.30 million bags worth US\$ 1.25 billion compared to 5.84 million bags worth US\$ 868.53 million in the previous year (August 2022-July 2023). This represents an increase of 7.94% and 43.94% in quantity and value respectively.

69% of the total volume was exported by 10 exporters, out of 63 companies which performed during the month compared to 67% in June 2024.

1. Coffee exports

Coffee exports in July 2024, amounted to 821,593 60-kilo bags, worth US\$ 210.48 million as shown in Fig 1. This comprised of 722,444 bags of Robusta valued at US \$ 198.00 million and 49,149 bags of Arabica valued at US\$ 12.48 million (see Table 1 and Annex 1). This was an increase of 26.15% and 98.68% in quantity and value respectively compared to the same month last year.

By comparing quantity of coffee exported by type in the same month of last Year (July 2023), Robusta increased by 22.16% and 112.07% in quantity and value respectively, while Arabica exports decreased by 17.92% and 0.73% in quantity and value respectively.

The monthly coffee exports volume was higher than the previous year and this was seen in Robusta exports as the newly harvested bigger crop from Greater Masaka and South Western regions reached the market. Arabica exports were, however, lower than the previous year due to a smaller harvest in Elgon region due to the bi annual off year cycle coupled with poor flowering in the region. The value of coffee exports was higher in tandem with high global coffee prices as result of dry weather conditions in Brazil and Vietnam that are seen to affect coffee yields and therefore a likelihood of supply deficit in 2024/25 .

Coffee exports for twelve months (August 2023-July 2024) totaled 6.30 million bags worth US\$ 1.25 billion compared to 5.84 million bags worth US\$ 868.53 million in the previous year (August 2022-July 2023). This represents an increase of 7.94% and 43.94% in quantity and value respectively.

6. Global Situation

World coffee production for 2024/25 is forecast to increase by 7.1 million bags from the previous year to 176.2 million due primarily to continued recovery in Brazil and rebounding output in Indonesia. With additional supplies, global exports are expected to increase by 3.6 million bags to 123.1 million primarily on strong shipments from Indonesia and Brazil. Consumption is seen to be 3.1 million bags higher to 170.6 million. Ending stocks are expected to rise by 1.9 million bags to 25.8 million following 3 years of decline. (United States Department of Agriculture, Coffee: World Markets and Trade report-June 2024).

8. Coffee Consumption and Promotional Activities.

During the month, Uganda Coffee Development Authority (UCDA) promoted domestic coffee consumption at six events: The International Telecommunication Union (ITU) Global Symposium for Regulators (GSR 2024), held at Speke Resort Munyonyo from July 1st to 4th, 2024; the Public Service Leaders' Introspection Retreat at the National Leadership Institute (NALI) Kyankwanzi, held from July 7th to 14th 2024. The retreat, themed "Answering the Citizens' Call: Improved Service Delivery for Socio-Economic Transformation," focused on enhancing service delivery and fostering socio-economic development.

UCDA also promoted coffee consumption during the farmers' mobilization, education, value addition, and service delivery event in the Greater Masaka sub-region from July 20th to 30th 2024. The event was officiated by Rt. Hon. Prime Minister, Robina Nabbanja. UCDA in partnership with the Ankole Diocese (St. James Cathedral Ruharo), promoted Ugandan coffee to Christians and the general public at St. James Cathedral, Ruharo in Mbarara City.

UCDA participated in the 30th National Agriculture Show, held from July 26th to August 4th 2024, at the Source of the Nile Showgrounds in Jinja City. The event, organized by the Uganda National Farmers Federation (UNFFE) in collaboration with the Ministry of Agriculture, Animal Industry and Fisheries (MAAIF) and other partners, was themed "Innovating Pathways to Farm Business-Led Agro-Industrialization." Over 14 roasters co-exhibited with UCDA.

On July 28th 2024, UCDA promoted domestic coffee consumption and value addition during an event in Mitooma District, Ruhinda North Constituency, organized by the Rt. Hon. Thomas Tayebwa, the Deputy Speaker of Parliament. The event was officiated by His Excellency the President of Uganda, Yoweri Kaguta Museveni.

7. Local Situation

During the month of July 2024, farm gate prices ranged from Shs 5,800-6,000/= per kilo of Kiboko (Robusta dry cherries); Shs.11,500-12,500/= for FAQ (Fair Average Quality); Sh. 12,500- 13,000/= for Arabica Parchment; and Sh. 10,500-11,500/= per kilo for Drugar. Compared to the previous month, Robusta Kiboko averaged UGX lower than UGX 12,500 Arabica parchment UGX 12,750 per kilo the same as the pervious month Drugar UGX 11,000/= per kilo lower than UGX 11,500 per kilo higher than the previous month.

9. Coffee Development Activities

During the month of July 2024, the capacity of 5,193 coffee farmers was enhanced through 170 targeted trainings across eight coffee-growing regions. These sessions covered Good Agricultural Practices (GAPs), soil and water conservation, pest and disease management, and post-harvest handling. Notably, 1,460 women, 741 youth, and 39 persons with disabilities (PWDs) were included in these trainings. Additionally, soil analysis was conducted for 266 samples, revealing deficiencies in organic matter, potassium, nitrogen, and phosphorus, with tailored recommendations provided to farmers.

Utilizing the Geospatial M&E System and Coffee Farmer Registration App, 387 farmers, 225 farms, 4 buying stores, 5 hullers, and 1 buyer were registered. This effort spans across various regions, ensuring comprehensive documentation and support for the entire coffee value chain to comply with the European Union Deforestation Free Products Regulation (EUDR).

A total of 113 coffee factories, 63 stores, and 5 roasters were inspected to ensure compliance with quality standards. Additionally, 33 factories, 44 stores, 1 roaster, and 13 buyers were newly registered. Efforts also included certification of 10 exporters and the formation of a task force in Greater Masaka, resulting in the apprehension of one offender for coffee adulteration.

Several collaborative activities were undertaken, including participation in the Northern Uganda Agricultural and Trade Show, National Agricultural Expos, and various workshops focusing on sustainable land management, climate change adaptation, and coffee value chain enhancement. A joint field visit with UNDP teams assessed potential beneficiaries for support programs, ensuring inclusivity and thorough evaluation.

Despite progress made, programme implementation was affected by some challenges such as stakeholder resistance to farmer registration due to inadequate sensitization, and pest and disease prevalence. To address these challenges, UCDA in collaboration with key sector players will commence sensitization activities for industry stakeholders in August 2024. There will be specialized pest and disease management training, and awareness campaigns on EUDR for compliance will be conducted. These actions are all aimed at strengthening the coffee sector, improving farmer livelihoods, and ensuring sustainable coffee production across the country.

9. Outlook for August 2024

Coffee exports are projected to be 720,000 60-kilobags as the main harvest season south of the equator (Masaka and South Western regions) winds up.
